Personnel Selection and Classification

Implementation of Changes to the Military Occupational Classification and Structure(For the 9810 CTU and the 1 November 1998 - 31 March 1999 MOC Window)

By Order of the Secretary of the Army:

ERIC K. SHINSEKI
General, United States Army
Chief of Staff

Official:

JOEL B. HUDSON
Administrative Assistant to the
Secretary of the Army

Proponent and exception authority.

The proponent of this pamphlet is the Deputy Chief of Staff for Personnel. The Deputy Chief of Staff for Personnel has the authority to approve exceptions to this pamphlet that are consistent with controlling law and regulations. The Deputy Chief of Staff for Personnel may delegate this authority, in writing, to a division chief within the proponent agency in the grade of colonel or the civilian equivalent.

Suggested improvements. Users are invited to send comments and suggested improvements on DA Form 2028 (Recommended Changes to Publications and Blank Forms) directly to the Commander, U.S. Total Army Personnel (PERSCOM), ATTN: TAPC-PLC, 200 Stovall Street, Suite 3N59, Alexandria, VA 22332-0406.

Distribution. This publication is available in electronic media only and is intended for command levels B, C, D, and E for Active Army, A, B, C, D, and E for Army National Guard of the U.S., and A, B, C, D, and E for United States Army Reserves.

History. This printing publishes a new Department of the Army pamphlet.

Summary. This pamphlet provides instruction for implementation of Headquarters, Department of the Army, approved changes to the officer, warrant officer, and enlisted military occupational identifiers.

Applicability. This pamphlet applies to the Active Army, the Army National Guard, and the U.S. Army Reserve. Specifically, it applies to proponent agencies and personnel support activities involved in career management, field management, and military occupational specialty classification and structure. During mobilization, chapters contained in this pamphlet may be modified by the proponent.

Summary of Change

DA Pam 611-24

Implementation of Changes to the Military Occupational Classification and Structure
(for the 9810 CTU and 1 November 1998 through 31 March 1999 MOC Window)

This new Department of the Army pamphlet--

- o Summarizes and provides instructions for implementation of changes to DA Pam 611-21 that were approved during the 1 November 1998 through 31 March 1999 MOCS change cycle.
- o Consolidates implementation guidance previously announced in Notification of Future Changes (NOFC) O-9810-1 through O-9810-28 (officers). Note: There are no enlisted or warrant officer NOFCs this cycle.
- o Notes that DA Pam 611-21 superseded AR 611-101, AR 611-112 and AR 611-201.
- o Does not contain updated MOCS identifier specifications. The updated specifications for enlisted soldiers MOCS identifiers will be included in the Military

Occupational Classification and Structure (DA Pam 611-21).

- o Informs user of miscellaneous changes to qualifications and grading tables that do not require position or personnel reclassification (app D).
- o This pamphlet lists current project development identifiers (PDI) and project development skill identifiers (PDSI) (app E).

Chapter 1

General

1-1. Purpose

This pamphlet provides instructions for the implementation of approved changes to the Military Occupational Classification and Structure (MOCS) for the 1 November 1998 through 31 March 1999 cycle.

1-2. References

Required and related publications are listed in appendix A.

1-3. Explanation of abbreviations and terms

Abbreviations and terms used in this publication are explained in the glossary. (See also Pam 611-21 for a consolidated glossary.)

1-4. Responsibilities and schedules

Specific actions, dates, and responsibilities for implementing position and personnel changes contained in this pamphlet are included at chapter 3. Guidance on other action required (for example, recruitment, training, and other personnel management actions) is outlined in AR 611-1.

Chapter 2

Implementation Guidance

2-1. Procedures for position or personnel reclassification

a. Update to TOE. The changes contained in this pamphlet will be applied to the Army TOE publish process (PP) code 2-5, wherein at least one or more unit identification code (UIC) level organization exists as a result of the MTOE process. These changes will be included in the consolidated TOE update (CTU) that is to be published on the date indicated at chapter 3. This CTU is the basis for applying these changes to MTOE by the MACOMs within their currently resourced levels and other applicable HQDA guidance.

b. POSC-Edit File. The changes contained in this pamphlet will be posted to the POSC-Edit File version appropriate for editing TAADS-R, and personnel-related files.

c. The Army Authorization Document System-Redesign (TAADS-R). Proponents may begin conversion in their data bases upon receipt of the POSC-Edit Tape. Changes will be submitted to HQDA by 30 December or on the first tape generated after opening of the command plan window if the POSC-Edit Tape is received late or is incorrect.

(1) *The U.S. Army Force Management Support Agency (USAFMSA).* (For units satellited on USAFMSA only).

(a) *Type A changes.* No action is required by TAADS-R proponents for Type A changes. Commanders will make pen and ink MOS or AOC changes to their unit documents by the last day of the command plan to ensure compatibility with MOS or AOC data contained in documents maintained by proponents and at HQDA. (USAFMSA

will also delete, without further action by TAADS-R proponents, rescinded SQI, ASI, or skills.)

(b) *Type B and B+ changes.* Type B MOS or AOC changes will be submitted by TAADS-R proponents (as approved) or by HQDA proponents (as directed) by the Commander, USAFMSA (Executive Agent for DAMO-FD). Tapes will be forwarded to Commander, USAFMSA, ATTN: MOFI-FMA-SDB, WASH, DC 20320-0460 by 30 December. TAADS-R proponents will either provide units revised authorization documents or direct units to make pen and ink changes to their current documents to ensure compatibility with classification data contained in documents maintained by proponents and HQDA.

(2) *TAADS-R proponents.*

(a) *Type A changes.* TAADS-R proponents will use the POSC-Edit file to identify changes in MTOE and TDA to automatically apply one-for-one changes to their documentation data base.

(b) *Type B and B+ changes.* Type B and B+ changes will be applied to the TAADS-R data base no later than the dates shown in chapter 3, table 3-1. Commanders and proponents are reminded that their reviews and submissions must include appropriate SQI, ASI, skills, language identification code (LIC), grade, and branch (warrant officer, senior warrant, or master warrant) as part of the documentation of MOS or AOC data on authorization documents.

(c) *ASI and skills guidance.* ASI and skills reflected in TOE or in the latest CTU will be the base for the requirements of a position. For the TDA, HQDA has provided TAADS-R proponents the authority to select and document ASI and skill codes that best

meet the needs of their commands unless specifically prohibited by DA Pam 611-21.

Note. DA Pam 611-21 superseded AR 611-101, AR 611-112, and AR 611-201.

d. Personnel reclassification (enlisted).

(1) *Active Army.*

(a) MOS, SQI, ASI, and LIC changes will be accomplished by reclassification authorities as outlined in AR 600-200, chapter 2. Direct conversions affecting all soldiers in a specific MOS to one other MOS do not require orders. Reclassification will be accomplished and changes made in local personnel records consistent with the schedule contained at chapter 3, table 3-2.

(b) Personnel Service Center (PSC) chiefs and Personnel Service Company (PSC) commanders will report MOS changes per the procedures contained in DA Pam 600-8-2. If position numbers are changed, these will be reported by unit commanders per DA Pam 600-8-1. These changes will be reported within the dates shown at table 3-2.

(2) *ARNG.* The reclassification of ARNG soldiers, directed by this update, will be accomplished per directives governing National Guard personnel management.

(3) *USAR.* The reclassification of USAR soldiers (directed by this update) will be accomplished with publication of orders except as may be otherwise directed by the Chief, Army Reserve.

(a) Changes to Primary Military Occupational Specialty (PMOS) and duty military occupational specialty (DMOS) of USAR Troop Program Unit (TPU) soldiers will be

reported according to the procedures contained in the SIDPERS-USAR Users Manual.

(b) Commander, U.S. Army Reserve Personnel Command (USARPERCOM), St. Louis, MO will reclassify Individual Ready Reserve (IRR) and Standby Reserve Personnel.

e. *Personnel reclassification actions (officers and warrant officers).*

(1) *Active Army.* Officers and warrant officer reclassification actions directed by this pamphlet will be accomplished centrally by the Commander, PERSCOM.

(2) *ARNG.* The reclassification of ARNG officers and warrant officers, directed by this pamphlet, will be accomplished according to directives governing National Guard personnel management.

(3) *USAR.* The reclassification of USAR officers and warrant officers directed by this pamphlet will be accomplished as directed by the Chief, Army Reserve.

2-2. TOE/TAADS-R position documentation guidance

See appendix B for specific documentation for activities creating or updating TOE/MTOE, and TDA documents.

2-3. Selective reenlistment bonus (SRB) and enlistment bonus (EB) status (enlisted only)

a. The SRB or EB status for MOSs added by this pamphlet will be announced by the CG, PERSCOM, in a separate directive.

b. Any action involving an enlisted soldier's SRB or EB entitlement will be governed by AR 601-280, chapters 8 and 9; announcement of proficiency pay, service reenlistment

bonus, enlistment bonus MOS, and appropriate DA messages.

2-4. Enlisted ARNG and USAR promotion

Enlisted personnel may be promoted to locally identified vacancies created by position changes made to authorization documents. Promotions made under this authority will be in compliance with NGR 600-200, chapter 6 (ARNG) or AR 140-158 (USAR).

2-5. Lateral appointment

Where appropriate, lateral appointment in the authorized grade will be according to AR 140-158 (Reserve Components), chapter 1; AR 600-200 (Active duty), chapter 2; and NGR 600-200, chapter 6.

2-6. Personnel requisition conversion

a. Enlisted soldiers. Conversion of all unfilled requisitions on file at PERSCOM will be completed by the appropriate PERSCOM manager responsible for the validation and submission of requisitions.

b. Officers and warrant officers. All unfilled requisitions on file at PERSCOM will be compared with reclassification guidance at appendix C, tables C-1 and C-2 and converted centrally when required.

2-7. Temporary substitutability

a. Positions in authorization documents are reclassified approximately 3 months prior to completion of personnel reclassification.

b. To preclude a possible adverse impact on personnel management and readiness reporting in these instances, temporary substitution is authorized during the periods indicated below--

- (1) January 1999 through January 2001 (for MOS or AOC listed at appendix C, tables C-1 through C-3).
- (2) Any exceptions to the above dates are indicated in the reclassification guidance for the specific MOS or AOC at appendix C, tables C-1 through C-3.

2-8. Miscellaneous changes

This miscellaneous changes at appendix D do not require position or personnel classification action. The summarized changes shown in appendix D, tables D-1 through D-3, are incorporated into DA Pam 611-21 as appropriate.

Note. DA Pam 611-21 superseded AR 611-101, AR 611-112, and AR 611-201.

2-9. Project Development Identifiers

The information in appendix E lists current project development identifiers (PDI) and project development skill identifiers (PDSI).

2-10. Special miscellaneous changes

The special miscellaneous changes in appendix F do not require position or personnel classification action. They are to provide documentation guidance in accordance with DA Pam 611-21.

Note. DA Pam 611-21 has superseded AR 611-201.

Chapter 3

Summary of Changes and Implementation

3-1. Current approved changes

Changes contained in this pamphlet have been approved by the Deputy Chief of Staff for Personnel, HQDA (DAPE-PR). They have also been and concurred by the Commander, USAFMSA (Executive Agent for DAMO-FD), the Chief, USAR and Chief, NGB.

3-2. Guidance

This appendix describes actions and provides milestones for implementation of military occupational classification and structure changes contained in this pamphlet. These instructions apply to all elements of the Active Army, the ARNG of the U.S., and the USAR.

3-3. Responsibilities and milestones

The actions, responsibilities, and milestones shown in table 3-1 (TOE/TAADS-R) and table 3-2 (Personnel/SIDPERS) are prescribed by AR 611-1.

Project Development Identifiers

E-1. Purpose

This circular lists current project development identifiers (PDI) and project development skill identifiers (PDSI). Included are additions and deletions for the last listing of all identifiers.

E-2. References

Related AR 611-76, Project Development Identification System. (Cited in para 3.)

E-3. Use of identifiers

AR 611-76 outlines uses of all PDI and PDSI and gives procedures for assignment, withdrawal, and termination of all identifiers.

E-4. PDI and PDSI lists

Table E-1 lists all authorized PDIs, and table E-2 lists all PDSI.

E-5. Additions and deletions to PDI and PDSI listings

- a. Table E-3 lists PDI and PDSI that have been established since the last listing.

b. Table E-4 lists PDI and PDSI that have been discontinued: they are no longer authorized. No entries at this time (table reserved). These codes have been removed from the lists in tables E-1 and E-2.

Glossary

Section I Abbreviations

This section contains no entries.

Section II Terms

This section contains no entries.

Section III Special Abbreviations and Terms

The following definitions are provided for use in implementing changes outlined in this pamphlet. (See also the DA Pam 611-21 consolidated glossary.)

Miscellaneous changes

A revision to the specifications for military occupational identifiers that does not require position or personnel reclassification (for example, lowering of security clearance requirement).

Conversion date

The date that a military occupational identifier converts to another identifier in Tables of Organization and Equipment (TOE) and The Army Authorization Documents System-Redesign (TAADS-R).

Implementation date

The date upon which a new military occupational identifier is valid for use in

position (TOE or TAADS-R) and personnel classification.

FY_ command plan

This term replaces the "Management of Change (MOC)." The command plan process begins in June of each year and concludes with the production of the master force one year later (normally May). The "FY_" reflects the fiscal year for which the authorization documents will be effective (3 years in the future).

One-for-one

Direct conversion for a four-character military occupational identifier to another four-character military occupational specialty (MOS) (enlisted soldiers or warrant officers) or a three-character area of concentration (AOC) (officers) to another three-character AOC in TAADS-R. Consolidation of two or more MOSs or AOCs into a single military occupational specialty code (MOSC) or AOC may also be a one-for-one change. These changes assume that all positions in a given MOS or AOC convert directly to another MOS or AOC, and the special qualification identifiers (SQI), additional skill identifiers (ASI), skill identifiers (SI), and medical functional area (MFA) currently reflected in the documents are compatible with the replacement four-character MOS or three-character AOC.

- a. Type A changes are document changes that are identified automatically by edit of documents contained in the TAADS-R with the Personnel Occupational Specialty Code Edit (POSC-Edit) Tape, Type A changes include "one-for-one" changes as discussed above but only if SQI, ASI, and skill codes that currently

appear on the document line to be converted are compatible with the new MOS or AOC in which the position is to be classified.

b. Type A changes may only be handled to the four-character MOS or three-character AOC level of detail.

Rescission date

The date upon which a current military occupational identifier is invalid for either personnel or position classification.

Selective changes

Selective changes are the result of the implementation or conversion of a military occupational identifier. They require analysis of unit missions, assigned equipment, desired skills, training, and experience of the prospective incumbents. Selective changes are of two types:

a. Type B changes. Type B changes require TAADS-R proponents to submit information to HQDA and proponent data bases via TAADS-R. Generally, Type B changes are identified in TAADS-R by the Conversion Impact Analysis Report (CIAR). Example of Type B changes are--

(1) Conversion of a single MOS or AOC into two or more AOCs or MOSs and the rescission of the current MOS or AOC at same grade and skill level.

(2) Shred out of a single MOS and AOC into the same AOC or MOS and one or more other MOSs or AOCs at the same grade and skill level.

(3) Conversion of an ASI or skill to an MOS or AOC at the same grade and skill level.

(4) Change or addition of a ASI, SQI, or skill; or the conversion of one of these to another SQI, ASI, or skill.

(5) Association or disassociation of an existing ASI or skill with one or more of another MOS or AOC code.

(6) MOS or AOC is being deleted and is being replaced by an ASI or skill.

b. Type B+ changes. Type B+ changes are selective document changes that are not identified in the TAADS-R by the CIAR. Included is any standards of grade (SG) revision that changes the authorized grade of selected positions, either as a separate action or as part of a Type B change.
